

## GOOD LANDS SECURED FOR OKLAHOMA

Governor Jenkins Interviewed  
by Eagle Correspondent.

SPEAKS OF THE OPENING

Oklahoma Will Fare Well in  
County Appointments.

Guthrie, O. T., July 6.—Governor William M. Jenkins arrived in the city last night from his trip to Washington to look after the interests of the territory and in selecting the indemnity school lands. Governor Jenkins came down to his office this morning at the usual time and took up the work which had accumulated during his absence.

The governor was seen this afternoon by the correspondent for the Eagle and was asked about the work of selecting the indemnity lands. Governor Jenkins said:

"We met with splendid success in selecting the indemnity lands. The territory will secure something over 100,000 acres of good land. It will be placed on the official map which is to be issued by the department of the interior, showing the Indian allotments, and this will be of much benefit to the settlers taking lands in the new country. Heretofore it has taken weeks of time to have these lands filed with the department at Washington, owing to the fact that there were so many channels in which the papers had to go before reaching them."

"Was much of this land selected near the principal towns of the reservation?"

"As much of the land as I thought justifiable in selecting near the principal towns was secured by the territory. I did not think it best to try and secure any great amount of land near the towns, as it would have been satisfactory to the persons desiring homes there. We were very fortunate, however, in securing good lands, and the whole selection will prove of much benefit to the territory. We had some little trouble at first in getting started at this work, but after the work of selecting was commenced we were aided in every possible manner by the department officials and the result was that the plan was carried out in a very short time."

"What do you think about the plan advanced by Lewis Hornbeck to go into the new country and take land regardless of the method of opening the reservation?"

"I do not think that anything will come of it. I feel that the people of Oklahoma and other states have too much good sense to try this kind of a plan after the system of opening has been fully explained in the president's proclamation. I understand that attorneys are going to advise free of charge, stating that the proper thing to do will be to enter the reservation and secure homes. I fully believe that the people of Oklahoma have more than enough practical business sense to know when the other fellow expects to make something out of his advice. The proposition of going up against the government in a thing of this kind is really larger than at first anticipated."

"How much future in Washington did the protest of Judge Springer and the Indians get in their protest against the opening? Was their protest taken seriously by the officials?"

"In some cases this protest was not taken seriously. There was a feeling of anxiety of the officials of the kind of which Judge Springer was always bringing forth something to a sort of assurance in his work in trying to delay the opening. When the matter got into the court, it was then considered more serious, and the decision was written with some show of anxiety. Judge Springer used every possible method to delay the opening, but as you well know was not successful in so doing."

When asked about the county appointments in the new country, Governor Jenkins stated that the appointments would probably be given out in two weeks, or

## Go to the famous WAUKESHA for your summer outing.

Engage hotel, drive, rowing, golf and every kind of pleasure, with the beautiful waters, or at your service at WAUKESHA. You will find it a most enjoyable and profitable trip.

W. S. FRANK, Sec'y, care of Hotel Waukesha, Wis.

as soon as he can reach that part of the work. It has been the impression that the appointments would not be made until the opening of the reservation, or at least until a few days before the drawing was made. Oklahoma people will undoubtedly have heard in the country appointments, for it has been the impression right along that men outside of Oklahoma would not be appointed to these positions.

In regard to the territorial appointments, Governor Jenkins had very little to say. He indicated that they might come at any time, or whenever in his estimation was the best time. His work in Washington has delayed the office work here to such an extent that it will require some time to catch up with it, and consider outside business and appointments. The governor was seeing very few people today. He was too busy engaged with correspondence, etc. On Monday he will see a number of people and from that time on callers will have access to his office with reasonable hopes of seeing him.

In Private Rooms, St. Louis to New York.

No one to bother you, no intrusion into your apartment, all comforts of parlor and bed-chamber at your command, with well trained servants to respond to push of electric bell buttons, while you enjoy fast traveling across Illinois, Indiana, Ohio and Pennsylvania on the most complete railway train for the century—the famous Pennsylvania Limited—the train which takes drawing room sleeping cars from St. Louis to New York. Find out about it by asking J. M. Chesbrough, A. G. P. A. St. Louis, Mo., or J. T. Foley, T. P. A. St. Louis, Mo., or J. T. Foley, T. P. A. St. Louis, Mo.

IS READY FOR BUSINESS

Details Will Not Leave Town Till After the Opening.

Guthrie, O. T., July 6.—Charles Flynn, who has returned from Washington after a number of weeks' absence, is in the city and will remain until after the opening of the Keweenaw and Comanche country. This statement was made by Mr. Flynn to an Eagle correspondent and he will be at his office in this city to take care of his work and receive the men who want to see him on business between now and the opening.

\$13.00 to Buffalo and Return—\$13.00 via the Nickel Plate road from Chicago. The Nickel Plate road is offering tickets on sale daily, good for Buffalo and return, including day of travel, for \$13.00. Tickets, Chicago to Buffalo and return, at \$13.00 for the round trip, with 15-day limit, including day of sale. \$13.00 to Buffalo and return, good for thirty days, including day of sale. \$13.00 to Buffalo and return, good for thirty days, including day of sale. \$13.00 to Buffalo and return, good for thirty days, including day of sale.

ONLY ONE GOOD ROUTE

Surveying Crews of Frisco, Fort Smith and Western Near Chandler.

Guthrie, O. T., July 6.—The surveying crews of the Frisco and the Fort Smith and Western roads are camped near Chandler and making a survey towards this city. There is practically only one road in the country that is pulling up each other's staves in the attempt to secure the best survey. The people of this city are in interest in the outcome of the contest, as it means that it will have more railroads.

CASTORIA. The Kind You Have Always Bought

IT'S A SURE THING.

Muskegon and Western is Progressing in Westward Course.

Muskegon, I. T., July 6.—The railroad proposition at Muskegon stands thus: The Muskegon and Western is an absolutely sure thing. The Shawnee, Oklahoma and Missouri, headed by Dexter of Shawnee, is in a state of quiescence—a sort of hibernation. But there are other roads.

ALL WANT THE KNOB.

Oil Boomers Will Bore Many Wells at Red Fork.

Oklahoma City, O. T., July 6.—The Times-Journal says that J. M. Owen returned last evening from Red Fork, I. T., where he has been since Monday looking at the new oil field. Mr. Owen states that the visitors are coming into Red Fork new by the dozens, and the excitement over the discovery continues to spread. Oklahoma City is well represented among the visitors, several of her prominent business men being among them.

A syndicate composed of Robt. Colburn, C. E. Barnett, John E. Carson, S. H. Gibson, A. L. Webb and J. M. Owen of Oklahoma City, and W. W. White of Chicago have purchased about five acres of land within the Cherokee and has already drilled a heavy oil well. Their holdings are just 60 feet from the "oil knob" which is the center of and the starting point of the discovery of the Red Fork oil field. From this knob the discovery of the oil, says Webb, and when the well is drilled, it will be drilled in its immediate vicinity.

The Creek & Chickasaw oil and gas company, of which Mr. A. H. Quinn, of Burton, Kansas & Co., of this city is one of the owners, have just on the ground near their Mr. J. W. Butler, an experienced petroleum engineer, has been drilling night and day in that country, and is now drilling a well. Mr. Butler closed in last on a well back of land four blocks from the well just a few minutes before taking the train for this city yesterday afternoon. This company will begin drilling just as soon as Mr. Butler can erect his derrick and get his machinery in place.

The land secured by the syndicate mentioned above is in the town of Red Fork, and these titles in it are quite clear, which is the best and only title that can be secured in that country. All the oil lands are either leased in this way or leased.

Everybody who visits the gasbar is enthusiastic over the discovery and believe a big oil field will be developed at Red Fork.

## STATE BANK IS ENTERED BY ROBBERS

Unsuccessful Attempt Is Made on Stroud Bank.

SAFE WAS DESTROYED

But Robbers Fail to Reach Money Vault.

Stroud, O. T., July 6.—An unsuccessful attempt was made at about 2:30 o'clock this morning by three masked men to rob the Stroud State bank. The robbers entered the room adjoining the bank where Amos Sexton, assistant cashier and Earl Heath, were asleep. The young men were awakened and being bound hand and foot were told that if they made any noise they would be shot by the fellow who stood over them with a gun. The robbers then injected nitroglycerine into the safe three times and the explosion almost totally destroyed the safe, but they failed to get the money vault. They rolled Heath and Sexton off their watches and a small amount of money. Heath being for his watch on account of it being a keepsake and it was given back to him.

tion, east of McAlester and north of Keweenaw. The number of people taking vacations this year have been increased greatly, not only in Berlin, but throughout Germany, owing to the Prussian government having extended the period of validity of return railroad tickets to forty five days. This was a threat made by the present minister of public works, Herr Thülen, which the South German states have already initiated.

The special embassy from Morocco on its arrival here today lost no time in beginning business. The members of the embassy visited the foreign office at noon, being conveyed there in court carriages. They had a long talk with Baron Von Richthofen, the foreign minister. It is expected Emperor William will grant the embassy an audience tomorrow.

OFF TO OKLAHOMA

Thirty Clerks Will Conduct Business Pertaining to Opening.

Washington, July 6.—A force of thirty clerks for the general land office will have tonight for Oklahoma to conduct the business pertaining to the opening of the Keweenaw, Comanche and Apache lands in that territory. The proclamation will be promulgated Monday and land offices will be established. They will be located at Reno and Lawton.

Appointments have been made by the president to fill positions in the new land offices created in Oklahoma territory in connection with the opening of the Indian lands as follows:

Frank C. Richards of Missouri, to be registered and Thomas R. Reid of Oklahoma to be receiver at the Reno office; Henry D. McKnight of Oklahoma to be register and James D. McGuire of Oklahoma, receiver at the Lawton office.

No Rated Before United States Court

Commissioner Stanford ruled today in a review suit to recover some stock and land under the Cherokee stray law, that it being a tribal law it was not rated before any United States court. This is a most important ruling to stockmen throughout the Cherokee nation who have been harassed by their stock being confiscated under the elastic provision of the law. It also brings up the question of the validity of any tribal laws now in force. An appeal has been taken to the higher court.

SAFE IN CANTON WOME

Mrs. McKinley Stood Trip Well and

Canton, Ohio, July 6.—The train bearing the presidential party arrived here at 10:15 this morning. Mrs. McKinley stood the journey well. Owing to Mrs. McKinley's illness there was no formal demonstration at the station upon the arrival of the train, it being understood that the noise and confusion incident upon such reception would have an unfavorable effect upon the patient.

There was, however, a very large crowd present that completely filled the station platform. When the president and Mrs. McKinley stepped from the train a hearty cheer of welcome went up. In accordance with the wishes of the president to make the home coming as quiet as possible none of the reception committees had here heretofore welcomed the president, were present as organizations, but were there as individuals.

The president's carriage arrived from Washington several days ago and in it the chief executive and his wife and Mrs. McKinley were driven to their home. For several days past servants have been busy engaged in preparing the house for the comfort of the president and Mrs. McKinley. It was said by members of the president's party that Mrs. McKinley has accepted the exceedingly well and that her condition continued favorable.

President and Mrs. McKinley are much pleased with the appearance of their home and with the provisions made for their comfort in the chambers ordered since they last occupied the home. Mrs. McKinley seemed to be none the worse at the station and was seen in the presidential motor car. She was said by members of the party that she stood the journey remarkably well.

It is the hope of President McKinley that he and Mrs. McKinley will secure the largest possible measure of quiet and rest while in their Canton home. It is thought that there will be many official visitors to the president in this town, but it is probable that from time to time these connected with the administration may come here for consultation or instructions.

So far as possible, official work will be transacted in Washington. Direct communication with the executive offices will be maintained by the president's secretary.

After resting this afternoon Mrs. McKinley felt so well that she received a number of relatives and close friends who called during the evening to pay their respects. She and the president sat on the porch for several hours, chatting with the friends who called.

TO MAKE CHANGES

Will be General Shifting of Army Posts Throughout Country.

Omaha, Neb., July 6.—The return of the soldiers from the Philippines will make a general shifting necessary at army posts throughout the country. The first installment of changes for the department of Missouri was announced at army headquarters today and will go into immediate effect. The troops concerned to be at the quarters by July 8. This order will affect only the western posts in the department. Major William Stanton of the Elitch cavalry is directed to proceed with the squadron staff and troop B, from Fort Riley to Fort Reno, Oklahoma. Troop D, of the same squadron is ordered from Fort Riley to Fort Sill. Other orders are expected which will increase the garrison at Fort Crook at the expense of northern posts.

CASTORIA. The Kind You Have Always Bought

HOT TIME IN BERLIN

Everybody Is Off for Mountain Seashore or Any Cool Place.

Berlin, July 6.—The annual summer excursion to the seashore has begun. The schools have been closed until the middle of August. All trains for the past couple of days have been terribly crowded. It is said that fully a quarter of a million Berliners have already left. Scores of charitable missions are scaling the coast.

## MANY WOMEN TESTIFY That Pe-ru-na Cures Female Ills.

Dr. Hartman, President of the Hartman Sanatorium, Offers to Treat All Women Free During The Summer Months.

Miss Millie Baker writes from 226 East Ohio street, Chicago, Ill.:

"I suffered for years with weakness peculiar to women, severe bearing-down pains, and continual headache. My system seemed completely upset and I did not know where to find relief. The doctor tried three different remedies but they did not seem to help me any."

"After using five bottles of Peruna I was as well and strong as ever. I would not be without it for any money."

A Well Woman.

Mrs. Florence Attkins, 922 Forsythe street, Toledo, O., writes:

"I am today cured of that dreadful disease I wrote to you about when I asked your advice. I at once began taking Peruna and Mandala and have just finished the fifth bottle. It has cured me of leucorrhoea. I had the trouble for nine months and had given up hope of ever being strong again. I cannot tell how happy I feel, but you will know. I never heard of such medicine. It is the only medicine on earth. My husband is now taking it for catarrh of the head. I will always keep Peruna in my house."

"I cannot find anything to talk about from morning till night, but Peruna. I was a sick woman when I first wrote you. I have a bright, clear color now, and am altogether a well woman. I think leucorrhoea is the worst of female diseases, for I suffered all sorts of pains. I thought at first that I had ulceration of the womb, and Peruna has cured me. I am now a sound woman. Peruna is the best friend I ever had on this earth. It must be praised—it cured me."

Mrs. Florence Attkins.

TO SUCCEED KYLE

Kittredge Is to Be Appointed to Fill Vacancy in the Senate.

Omaha, Neb., July 6.—A special to the World-Herald from Sioux Falls, S. D., says: Hon. A. H. Kittredge, a prominent attorney of this city and ex-Republican national committeeman from South Dakota, will be appointed by Governor Harris to fill the vacancy caused by the death a few days ago of United States Senator James H. Kyle.

Mr. Kittredge is a resident of what is considered Senator Gamble's district and his appointment, it is said, will leave a clear field in the north portion of the state for the various candidates who will enter in the campaign for March 3, 1902. It is expected Governor Harris will make the appointment within the next few days.

STATION IS RE-ESTABLISHED

Rear Admiral Cresswell to be Commander-in-Chief of European Station.

Washington, July 6.—The navy department has issued formal orders re-establishing European station with Rear Admiral C. B. Cresswell in command. The cruiser Chicago is ordered to proceed to the station and be the flagship of the admiral. The Albany and Nashville have sailed from Singapore enroute for the new station. The headquarters of the squadron will be designated by Admiral Cresswell and probably will be in the Mediterranean.

Admiral Cresswell is no war hero and has acknowledged the receipt of his order. It is expected that the commander of the ship at the time they assemble will be Gibraltar.

The European station, although on the naval map has not been in actual existence since Red Sea before the breaking out of the Spanish war. Prior to that time the several ships had been in the Mediterranean and the fleet was commanded by the British admiral. The British admiral was ordered to leave the station to avoid the complications likely to arise which war was declared. The loss of the station was not felt at the outbreak of the Red Sea, on the coast, and a line running north and south through the Atlantic from the southernmost tip of Greenland to Paris on the north coast of Brazil and thence eastward. This includes the Arctic and all of the waters of Europe and North Africa.

Admiral Cresswell has been until now commander in chief of the British Atlantic station and his new assignment gives a vacancy which will be filled for the present by Captain Pennington of the Albany, now at Rio de Janeiro. Other ships are sent to the south Atlantic later, a rear admiral will probably be named for the command, but at the present there is no purpose of increasing the ship at that station. Neither is there any present
